

Howdy,

I think I'd be perfect for your role of Director of Design because I believe my experience as a hands-on servant leader, delivering exceptional experiences suits this role perfectly. Give me 178 words to tell you more.

**EXPERIENCE, I GOT IT.**

I've worked in a variety of UX roles for over 18 years. I've spent the last decade leading design teams at diverse organizations such as the Centers for Disease Control and Prevention (CDC), General Motors (GM) and Robert Bosch (Bosch).

Whether launching the CDC's first responsive web site, producing the first global instances of Apple CarPlay and Android Auto at GM or exploring AI driven interfaces across Smart Communities at Bosch, my teams and I have delivered remarkable experiences on a variety of platforms from web, mobile, wearables and into the new frontiers of voice and virtual interfaces.

**DESIGN IS A TEAM SPORT**

Ok, it's not a sport at all. Hackneyed cliché aside, I know exceptional results come from exceptional teams. I've spent nearly a decade growing teams and cultures that make the user's experience everyone's job by leveraging Designing Thinking and Agile principles.

I would love to discuss my passion for design and the opportunity at Auth0 with you. Until then, thank you for your time and consideration; I am grateful for both.

Be well,

-----
